

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office

April 23, 1997 LB 702

and Parks or on a federal preserve.

SENATOR CHAMBERS: And if they put one of these road blocks and happen to see somebody who is as dark as I am, had straight black hair and maybe speaks with an accent, and they became suspicious, they could hold that person and call some other law enforcement officer or agency saying, we think we might have a drug courier here, they could do that, couldn't they?

SENATOR BEUTLER: No, I don't think they could, Senator, unless they could somehow make a nexus or a connection to a violation of the game law. I mean, they...this amendment limits them to enforcement of the game law, not to the enforcement of any other laws of the state. And that being the case, I don't know how they could legally hold anybody...

SENATOR CHAMBERS: If...

SENATOR BEUTLER: ...unless they had some authority to do so otherwise.

SENATOR CHAMBERS: If I would, at this point, accept what you say your intent is for this bill, and not try to hold it up at this point, would you be willing, on Select File, to accept an amendment to the effect that any other law enforcement type activity in which they engage that produced evidence against any person, such evidence could not be used for any purpose in any proceeding against any individual, to make sure that all they do is game law enforcement?

SENATOR BEUTLER: Yes.

SENATOR CHAMBERS: Would you be willing to do...

SENATOR BEUTLER: Yes.

SENATOR CHAMBERS: Okay.

SENATOR BEUTLER: And I hope I'm understanding the dimensions of your question. I think that I am. I mean, clearly, the intent is to gain assistance in enforcing game laws and nothing else.
